

CATALOGUE '26

WHO ARE WE?

Everything began with a dream: bringing a smile to children's faces. Founded in 1995, Erdem Toys has grown into a large family that adds color to children's worlds, offering them safe and educational play companions.

Our journey started with importing products, but in 2013, saying "We can produce better ourselves," we established our own manufacturing facility. With a wide product range extending from scooters to pool balls, we have proudly been producing 100% domestically since 2022.

Our priority has always been the health of our children. In every product we manufacture, we act with the principle of "Health First, Then Play," designing sustainable, ethical toys that meet the highest safety standards (EN71).

With designs that transform imagination into reality and 30 years of experience, we create not just toys, but happy memories for children.

SUPER GARAGE

03-10

Where every floor tells a new story, Super Garage turns playrooms into bustling cities — multi-level worlds built for curious minds who love to park, race, and imagine. Because every little driver deserves a big adventure.

36-42

Gentle beginnings for the tiniest hands. Nini Baby creates safe, soft, and soothing companions for a baby's very first discoveries. Because the earliest years deserve the warmest care.

11-13

Built for speed, made for imagination. Fast Track brings the thrill of the race into every home, where tunnels, bridges, and winding circuits become the stage for unforgettable moments. Start your engines — the finish line is only the beginning.

43-45

Where play meets learning. Bright Brain turns everyday curiosity into moments of discovery — toys that inspire children to create, question, and grow. Little minds shine the brightest when play has purpose.

14-22

The city at your child's fingertips. From construction sites to rescue missions, Fast Wheels brings the real world to life through realistic vehicles full of detail, sound, and character. Every truck tells a story — every story teaches something new.

49-53

Be anyone. Imagine everything. Role Play invites children into worlds of their own making — where heroes rise, missions begin, and confidence grows through the power of pretend. Because imagination is the greatest adventure.

25-35

Sunshine, sand, and smiles. Fun Play is where summer memories are made — outdoor adventures designed for little explorers who never stop discovering. Because childhood is meant to be colorful, curious, and carefree.

52

Aim, roll, cheer — repeat. Strike brings the energy of the bowling alley home, turning ordinary afternoons into friendly competitions full of laughter. Active play that brings families closer, one pin at a time.
